

# Setting Up Application Environment

## Docker Installation

Date	24 OCT 2022
Team ID	PNT2022TMID34417
Project Name	Skill and Job Recommender Application

**Step 1:** Go the official Docker website: <https://docs.docker.com/desktop/install/windows-install/>

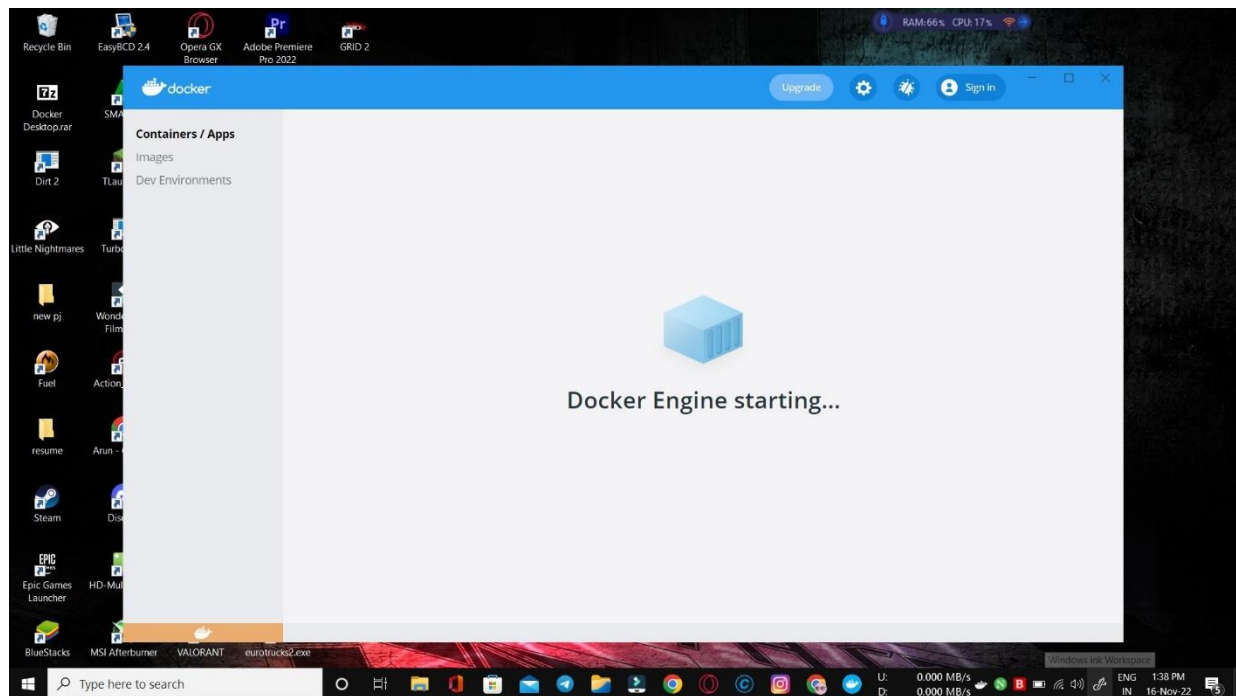

**Step 2:** Click that button (Docker Desktop for Windows) and download will start and it takes few minutes to complete.

**Step 3:** Go to downloads in browser (or) type **ctrl + J**, it will navigate to download page and double-click the particular docker file.

**Step 4:** Now Installation is complete. This icon was added in your desktop. Double-click the icon to start the docker app, you can register and login that app to access those credentials.

**Step 5:** Docker will start correctly, the left bottom side was shown in green color, docker will show the status of docker app working successfully

**Step 6:** Finally, the docker is installed successfully.
